EDUCATION

Jagannath University
Computer Science Bachelor

Bahadurgarh, Delhi NCR
Oct 2022 - July 2026

EXPERIENCE

Airports Authority Of India | Intern

Delhi, India | July 2025 - August 2025

- Built a Assets Management System web app using React, Node.js, Express, and MongoDB
- Implemented REST APIs, JWT auth, and role-based access control
- Designed responsive UI with Tailwind CSS and Figma
- Gained experience in teamwork, Git/GitHub, and agile development

SKILLS

Programming Languages: Java, Python, JavaScript, HTML5, CSS
Libraries/Frameworks: React, NodeJs
Tools / Platforms: Git, GitHub, VScode, Postman, Firebase
Databases: MySQL, MongoDB

PROJECTS / OPEN-SOURCE

CYBER PHARMA | Link

Javascript, Express, MongoDB, JWT

- AI-driven recommendations for health products
- Our platform combines cutting-edge digital solutions with essential medical services to create a seamless service for everyone.
- healthcare experience for everyone.
- We've created an all-in-one platform that brings pharmacy services, doctor consultations, lab tests, health information, and emergency blood bank services right to your fingertips.

Assets Management System | Link

Javascript, Express, MongoDB, JWT

Developed a full-stack web application for the Airport Authority of India to streamline tracking and management of airport assets, solving the problem of manual inventory and poor maintenance scheduling. The system centralized asset data, automated maintenance alerts, and reduced asset misplacement and downtime.

Key Features:

- Asset lifecycle management: Add, assign, transfer, retire
- Role-based access control (Admin, Staff, Viewer)
- Scheduled maintenance alerts with tracking history
- Interactive dashboard with charts and reports
- Secure authentication with JWT and hashed passwords

CERTIFICATIONS

- Fundamentals of Object Oriented Programming - SWAYAM.
- CodeForge'25 Hackathon - Unstop.
- Hackstasy Hackathon - SRM Institute of Science and technology.

HONORS & AWARDS

- Participated in Coding Mania organized by JIMS
